TODAY

STUDENT SUCCESS
BY CULTIVATING
PROFESSIONAL
LEARNING
FOR ALL

WE ARE DEDICATED TO STUDENT SUCCESS BY CULTIVATING PROFESSIONAL LEARNING FOR ALL.

WE BELIEVE

Professional development is most effective when supported by an organizational culture that fosters learning for all.

All professional development should be high quality and aligned to National Staff Development Council's Standards for Professional Development.

The success of Arizona students is affected by sustained professional development of all educators.

School improvement results from continuous professional learning.

Professional development is based on theory, research and proven practice.

Collaboration within the school community is essential for school improvement and student success.

Professional development must be embedded in the organizational structure for systemic change.

All educators share the responsibility for both individual and organizational growth.

Effective professional development honors differences in learners by using various approaches to learning.
